

3rd ASIA PACIFIC
PRECIOUS METALS
CONFERENCE
9-11 June 2019
PARKROYAL on Beach Road, Singapore

Increased Regulations...Bring it On!

Jeff McCulloch, Managing Director
Clean Mining Ltd
10 June 2019

Why is there increased regulations?

Consumers now demand supply chain transparency.

Why?

No one wants to purchase products associated with:

- Environmental contamination
- Human harm, exploitation or conflict
- Illegal trade including money/commodity laundering
- Poor ethical standards
- Contravention of laws and regulations

Clean Mining.....What do we do?

- ✓ **We have a revolutionary** non-toxic gold leaching reagent that replaces cyanide and mercury
- ✓ **Because we are non-toxic**, we can produce dry tailings and eliminate the need for cyanide destruction tailings dams
- ✓ **We eliminate environmental** catastrophies from breached tailings dams
- ✓ **We provide** a simplified plant, scalable from artisanal to large scale miners
- ✓ **We offer a mobile** plant option for small to mid-scale miners
- ✓ **We re-open** mining where cyanide can not be used or is banned
- ✓ **We offer a solution** to the Minamata convention which eliminates the use of mercury from 2020
- ✓ **We offer a solution** to governments battling unregulated mining and use of toxic chemicals
- ✓ **We offer a solution** to communities suffering the consequences of toxic mining chemicals

We are more than just a chemical and plant company

We also offer our trademarked Clean Gold.

- ✓ Gold that is **certified** mercury and cyanide free
- ✓ Gold produced by **responsible** miners that adhere to our certification and ethical standards
- ✓ Gold produced using our **cutting edge** technology and plant
- ✓ Gold **tracked** from mine to refiner to consumer

Environmental and Social Governance

- ✓ **We enable gold miners** to transform their Environmental and Social Governance standards
- ✓ **We offer consumers** a transparent choice in which gold they wear
- ✓ **We offer the bullion** market certified ethical Clean Gold
- ✓ **We eliminate toxic threats** from local communities
- ✓ **We offer a responsible alternative** to governments and regulators

Clean Mining is:

- ✓ the future of gold ore processing

Clean Gold is:

- ✓ the new gold standard

We are Clean Mining.... For a Richer Earth
