# Technologies for provenance transparency

Urs Rössli, CEO

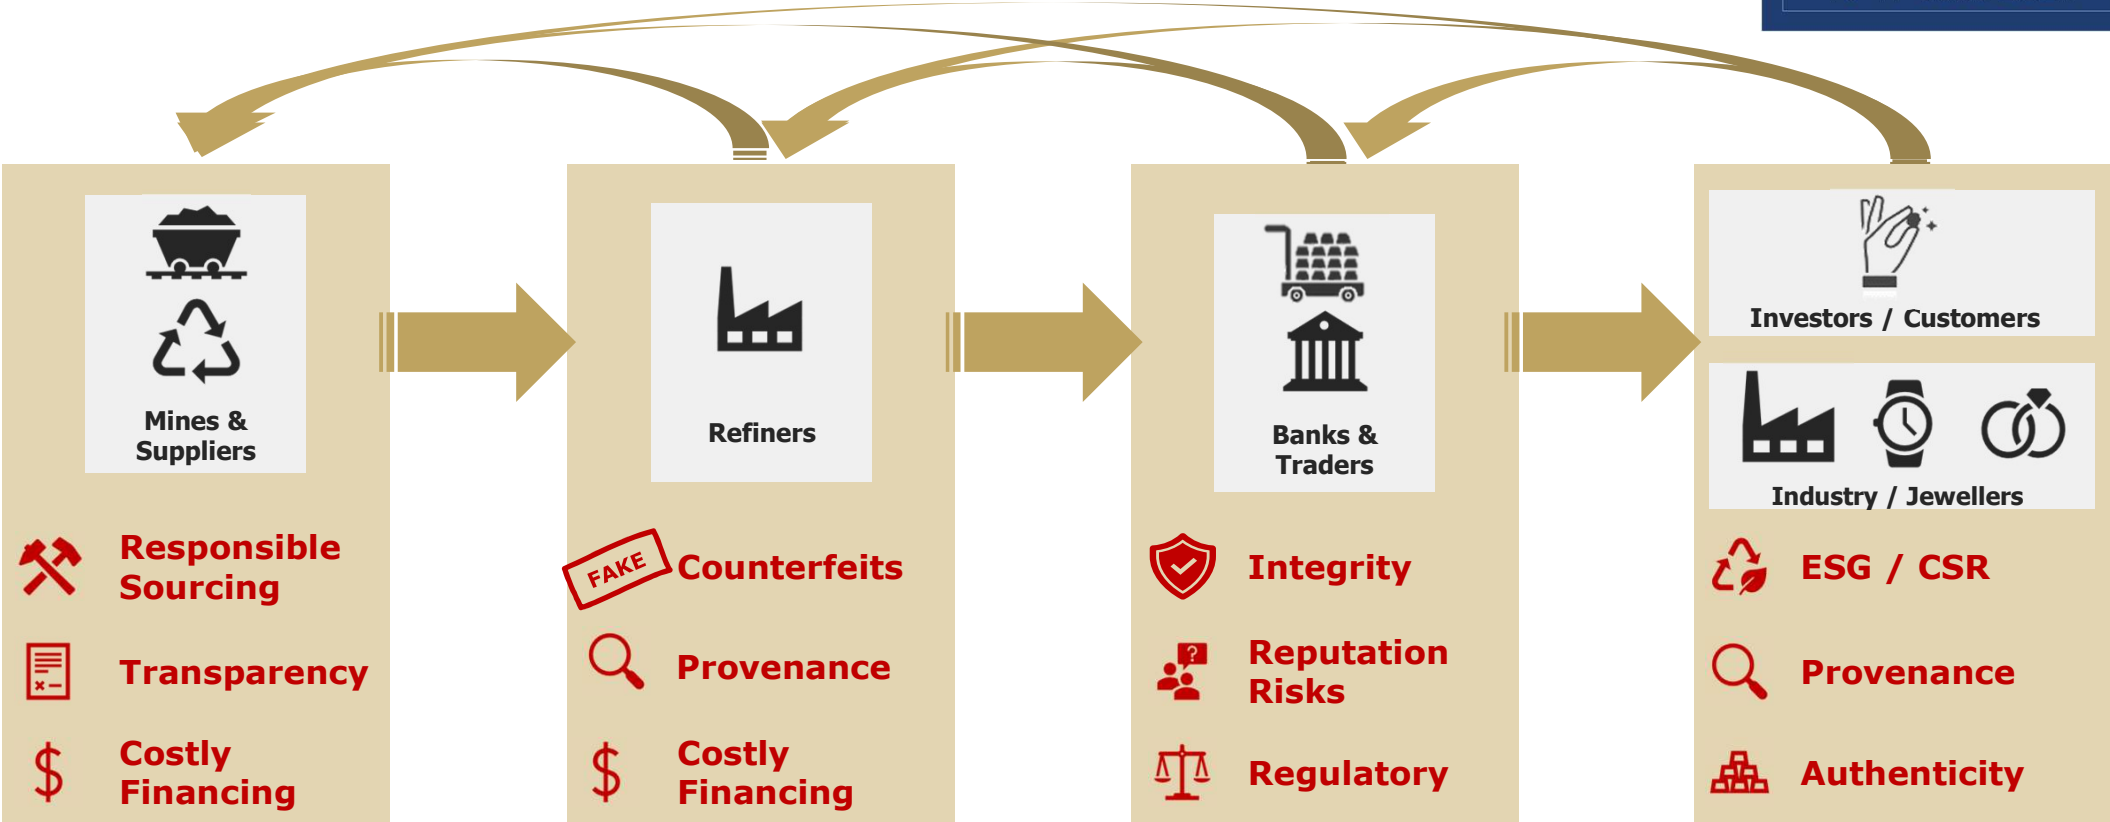

aXedras

June 2021

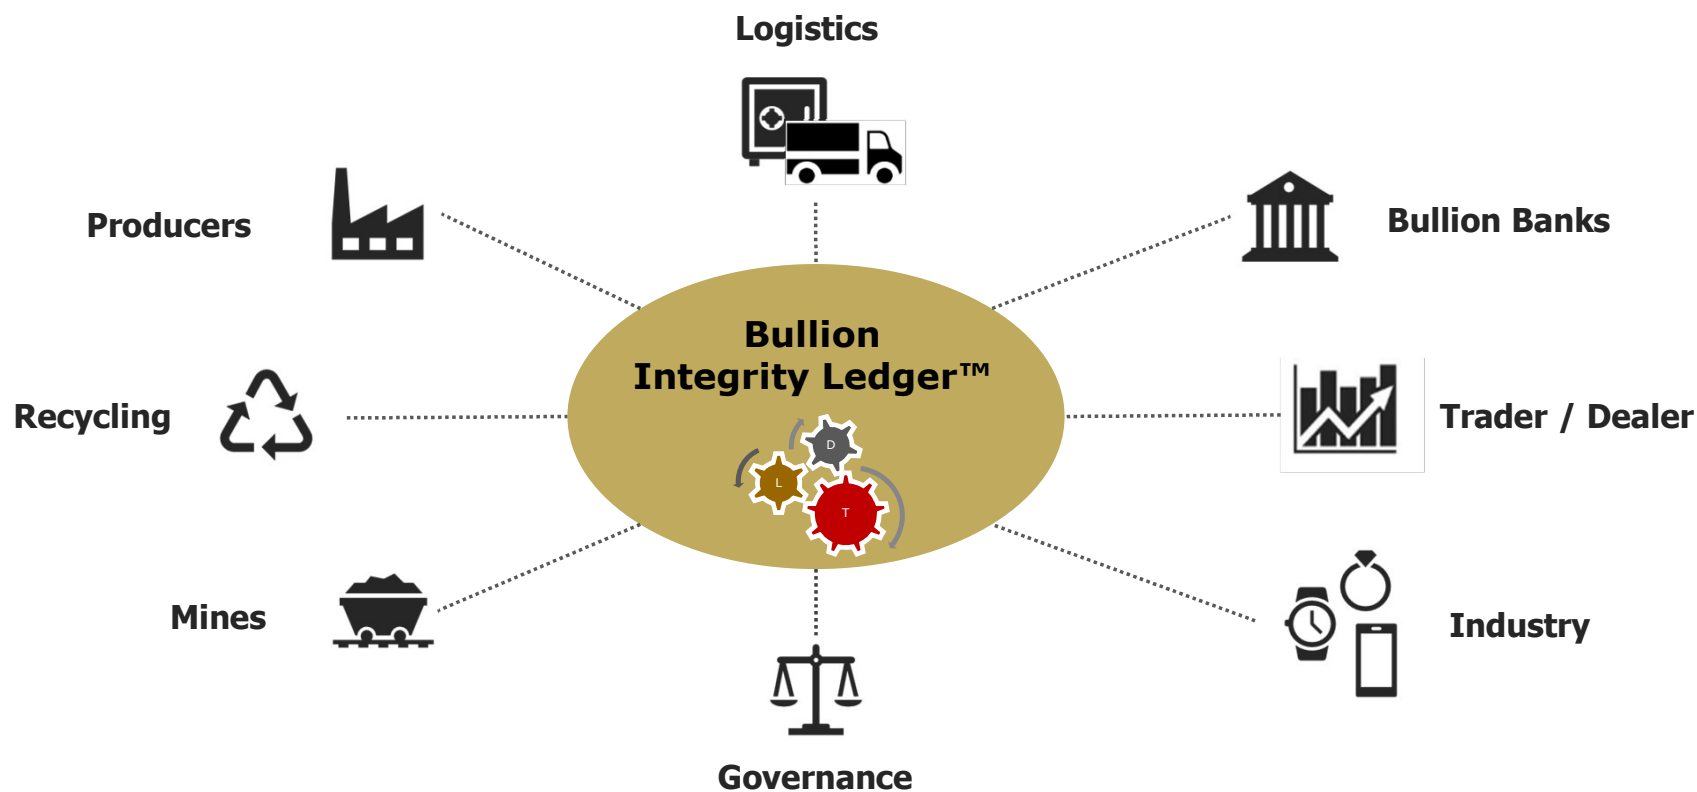

# Challenges along the entire value chain of gold

Each stakeholder faces its specific challenges, but all stakeholders are interdependent

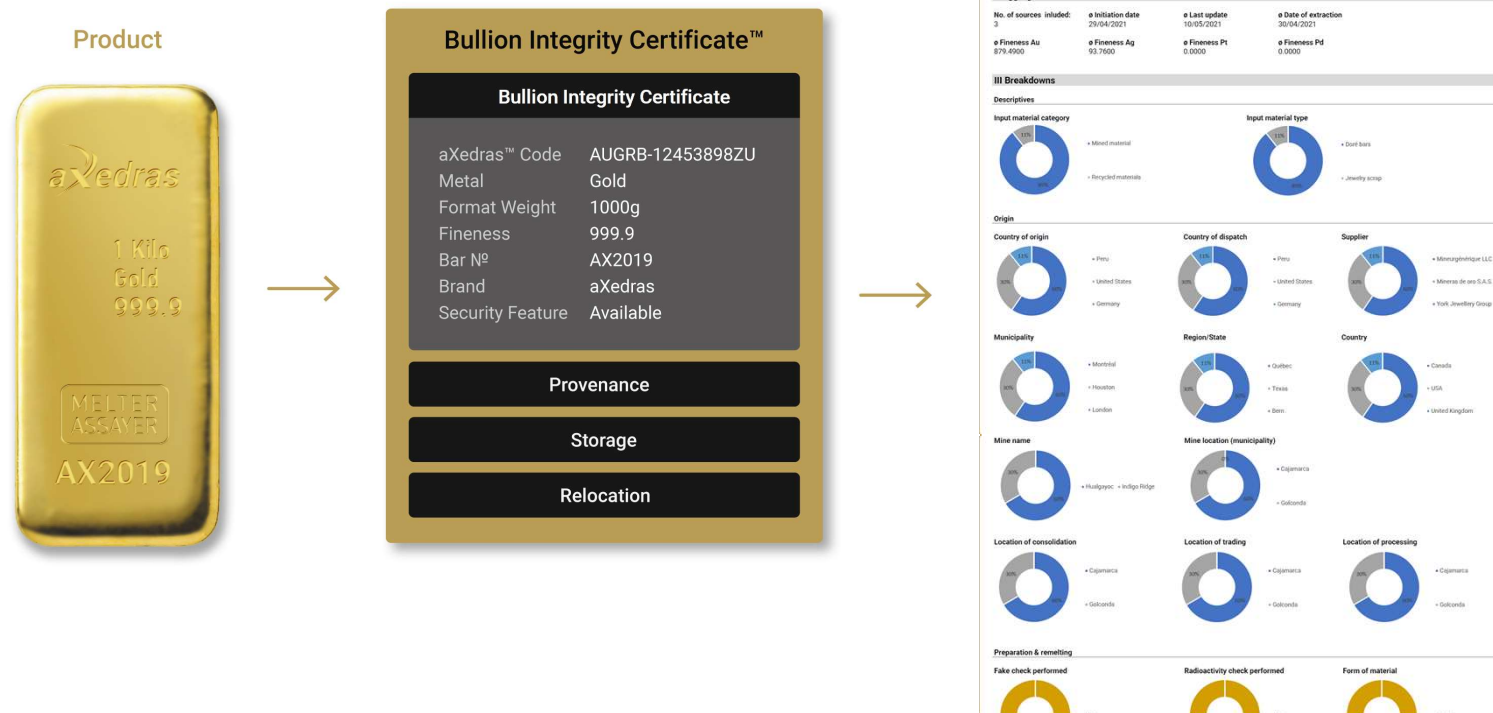

# Connecting and digitalizing the precious metal industry!

Interoperable platform: technology agnostic and harmonized data standards

# Novelty: digital product certificate and provenance reports

Finally, transparency where the gold comes from – whenever you need it !

# Benefits for the industry

Tailor-made, blockchain-based solution for the entire precious metal industry
