

The Digital Solution for the Global Precious Metal Industry

Switzerland 2023

aXedras solution in a nutshell

aXedras Provides Holistic Solution on One Product Platform

All players of the value chain exchange data with their business partners via one product platform based on harmonized data standards – Safe and tamperproof !

Bullion Integrity Ledger™

Novelty: Know-Your-Asset through Digital Integrity Certificates

The Bullion Integrity Ledger™ provides a data standard of each physical metal product (existing bars and new bars)

Physical Product

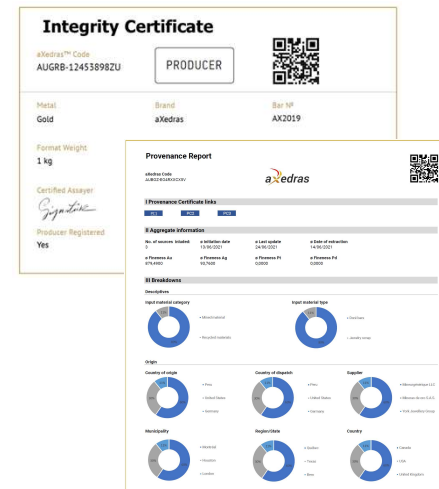

Digital Twin

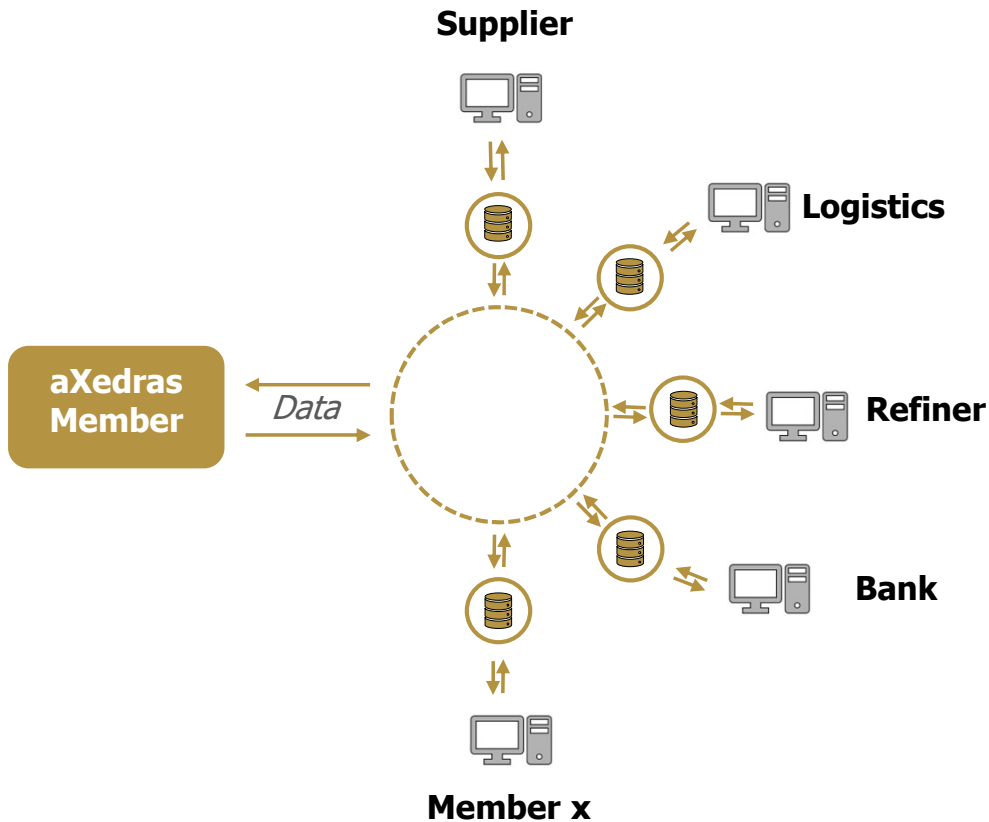

Digital twin replaces paper-based certificates

Digital Certificates

- ✓ Provenance documentation
- ✓ Transparency on ESG data
- ✓ Chain of custody info
- ✓ Authenticity-check through link to security feature

Decentralized aXedras Ecosystem

Only one interface required for data exchange with your business partners

Confidentiality

You decide with whom you share your data (peer-2-peer).

No central data base with all data stored

Transparency on product data and **strict confidentiality** on ownership / business transactions

Recent Key Activities and Outlook

System is life and growing number of clients

Gold Bar Integrity Pilot

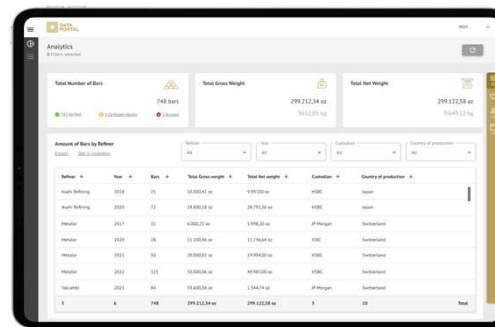

Successful Completion with 30+ participants

Downstream market

Providing **Asset - Reporting & Analytics Tool** for Gold Funds
